⚠️ Executive Commentary:

1. Overall 70% churn rate — abnormally high, dataset characteristic
2. Enterprise accounts for 78.6% of MRR lost despite similar churn rate to other tiers
3. Feature gaps and support issues drive 36% of churn reasons
4. UK has highest churn rate at 77.59%, US loses most MRR at \$645K
5. Mid-market companies (21-50 seats) churn at highest rate (74.5%)
6. Customers acquired via Ads have lowest churn rate (60.2%)
7. Downgrade is not a reliable early warning — only 8.83% of churned customers downgraded first
8. MRR Lost grew 18x in 2024 (Jan: \$15K → Dec: \$293K), with churn consuming nearly 13% of monthly MRR by Q4 2024 — signaling a worsening retention crisis
